

# ST. MICHAEL'S LUTHERAN CHURCH

BLOOMINGTON, MINNESOTA  
 OPUS 2093 • 3 MANUALS, 48 RANKS  
 THE REUTER ORGAN COMPANY

Reuter Opus 2093 was built in 1988 for St. Michael's Lutheran Church as a two-manual, 29-rank instrument. In 2003, the organ was completely reconfigured for a new sanctuary with about double the seating capacity of the former structure. The new three-manual console controls 19 additional ranks of pipes, including a new choir division based on the old Great. The organ takes its place as an integral part of this technologically advanced worship space.
